AMENDED IN ASSEMBLY MAY 21, 2007

CALIFORNIA LEGISLATURE—2007–08 REGULAR SESSION

ASSEMBLY BILL

No. 1432

Introduced by Assembly Member Soto

February 23, 2007

An act to amend Sections 22661, 22820, 26002.5, 26004, and 27406 of the Education Code, relating to state teachers' retirement, and making an appropriation therefor.

LEGISLATIVE COUNSEL'S DIGEST

AB 1432, as amended, Soto. State teachers' retirement.

The State Teachers' Retirement Law prescribes a comprehensive system of rights and benefits for its members and specifically permits a court, upon legal separation or dissolution of marriage, to award to a nonmember spouse, as defined, a separate account under the Defined Benefit Program pursuant to that person's community property interest. The law permits an employer to offer benefits under the Cash Balance Benefit Program to certain employees who are employed less than 50% of full time, and addresses community property interests in this regard. The law provides certain exceptions for nonparticipant domestic partners in connection with federal tax law limitations.

Existing law permits a member of the Defined Benefit Plan of the State Teachers' Retirement System to elect to purchase service credit for out-of-state service performed in a position while employed by a public educational institution located in another state or territory of the United States or for educational service performed as an employee of the United States, as specified. Existing law provides that contributions

for the purchase of service credit are deposited in the State Teachers' Retirement Fund, a continuously appropriated fund.

This bill would remove exceptions regarding certain transfers of accumulated contributions and rollover distributions for nonparticipant domestic partners in connection with federal tax law limitations. The bill would also make technical changes.

The bill would also permit a member of the Defined Benefit Plan of the State Teachers' Retirement System to elect to purchase service credit for service as an employee of an educational institution located outside of the United States and its territories that receives a portion of its funding from *any foreign or domestic* public sources, as specified, among others. By providing for increased contributions to a continuously appropriated fund, this bill would make an appropriation.

Vote: majority. Appropriation: yes. Fiscal committee: yes.
State-mandated local program: no.
